Agenda-Preventing a Whistleblower

Compliance & Human Resources Partnership → Effectively Address Employee Concerns → Culture & Perceptions → Effective Compliance Program
Addressing Employee Concerns

Bottom Line: An employee’s (reporter) acceptance of the outcome and continued commitment to the organization is whether or not they believe the procedure used to handle their concern was fair.

1. **Listen to them!** - Give them the opportunity to describe all of his or her concerns. Show that the company cares and will follow up. Ensure they know they are doing the right thing by reporting.

2. **Don’t Stonewall!** Ensure they see the process is fair...build trust.
   - Address their concerns irrespective of merit. Perceptions can be costly!
   - Change what needs changed. Timely.
   - Ensure there is no retaliation
   - Close the loop but do not share information about evidence, investigation, etc.

Perception

The Blind Men and the Elephant
Shape Perceptions to see the big picture

- Proactively Inform Employees of the Specific Risks and Controls
  Tell them about the elephant before they experience the tusks!

Example: An employee transfers from a low producing dental office to another practice with an extremely fast-paced dentist. The employee is concerned the doctor is either 1) not performing the services being billed or 2) must be performing them with sub-par quality. They didn't know about the audit plan.

Shape Perceptions to see the big picture

- Do employees know the controls in place to address the risks that pertain to their job, department?
  - Inform them of the specific risks and how the company works to prevent & deter them.
  - Engage them as the experts on their job to enhance the Compliance Program
  - Don’t keep your audits a secret

Proactively Address Perceptions with your Compliance Program

- Approach Education as though you are training every employee to be a Compliance Officer. Explain “Why”.
- Risk Assessment- Increase employee engagement by including the department in the development.
§8B2.1. Effective Compliance and Ethics Program
(a) To have an effective compliance and ethics program, for purposes of subsection (f) of §8C2.5 (Culpability Score) and subsection (b)(1) of §8D1.4 (Recommended Conditions of Probation - Organizations), an organization shall—

(1) exercise due diligence to prevent and detect criminal conduct; and
(2) otherwise promote an organizational culture that encourages ethical conduct and a commitment to compliance with the law.

What is Organizational Culture?
A Set of shared values, written and unwritten rules that guide employee behavior.
It affects the way people and groups interact with each other, with clients, and with stakeholders. In addition, organizational culture may affect how much employees identify with an organization thus impacting performance and morale.

Organizational Culture
What influences culture?
- **Artifacts** - Visible components of culture
  - Rituals and Ceremonies: New Hire/Annual Training, awards, Policies & Procedures
  - Symbols & Slogans summarize intrinsic behavior.
- **Values** - the kind of behavior the organization wants to promote and reward vs. what behavior is actually promoted and rewarded.
- **Stories** - Narratives based on true events. Stories become company heroes. Good or bad. Employees relate to the current organization due to events that happened in the past and carries on the legacy.
